PROFESSIONAL SUMMARY

Full-stack Software Engineer optimizing enterprise systems through **.NET** and **JavaScript** solutions. Delivered **60%** faster decision-making via **data visualization dashboards** and **15%** performance gains through **.NET 8** migrations. Proven ability to build scalable **REST APIs** and modernize legacy systems.

EXPERIENCE

Dover

July 2023 - Present

Software Engineer

Bengaluru

- Developed windows with **dropdowns**, **card elements**, **graphs**, and integrated **weather API** using **.NET**, **JavaScript**, **HTML**, **CSS**, **jQuery**, and **AJAX**, enhancing decision-making by **60%**.
- Migrated **.NET 4.8** code to **.NET 8 Core**, cutting page load times by **15%**.
- Designed and implemented **multi-tab interfaces** with **APIs**, improving navigation and reducing bugs by **30%**.
- Created **REST APIs** and optimized queries in **Oracle SQL Developer**, boosting data retrieval speed by **20%**.
- **End-to-end owner** of complex data windows (**jQuery DataTables** + **10+ .NET APIs**) with **real-time updates**.

Dover

February 2023 - June 2023

Software Engineer Intern

Bengaluru

- Automated reports in **.NET** with **Excel outputs**, increasing reporting efficiency by **30%**.
- Built the **"End of Line"** testing page using **JavaScript**, **HTML**, **CSS**, and **jQuery**, streamlining the testing process and reducing manual testing by **70%**.
- Implemented a **bit manipulation-based** voltage page, improving data accuracy by **30%**.
- Migrated **legacy SQL** code to **.NET 4.8** for **Hangfire**, enhancing task scheduling efficiency and reducing errors by **20%**.

TECHNICAL SKILLS

Languages: C#, C++, JAVA, Python

Web Technologies: .NET 4.8, .NET 8, ASP .NET MVC, Node.js, Express.js, ReactJS, Socket.IO, HTML, CSS, Javascript, jQuery, RestAPI

Database: Oracle SQL Developer, SQL Server Management Studio, MongoDB

Source Control: Git, Team Foundation Server

PROJECTS

REST API | .NET 8 Web API + MVC

📄 [Github](#)

- Built a **scalable REST API** using **.NET 8**, **DDD**, **Repository Pattern** and **EF Core(SQL Server)**.
- Secured API with **JWT authentication** with **role-based authorization(reader/writer)**.
- Added **API versioning**, **Serilog logging**, **global exception handling**, **image uploads(local storage)**, and optimized queries(**filtering/sorting/pagination**).
- Consumed API via **.NET Core MVC** and tested endpoints with **Swagger/Postman**.

LinkedIn Clone | MERN Stack

📄 [Github](#) 🎥 [Live Demo](#)

- Deployed a production-ready LinkedIn-inspired platform on **Render**, leveraging **MERN stack** with **JWT authentication**, **cookie-based sessions**, and **protected routes**.
- Engineered **real-time notifications** using **WebSockets** (connection requests, post likes/comments).
- Integrated **Cloudinary** CDN for image uploads/deletions and **Mailtrap** for automated emails (welcome/notifications).
- Optimized frontend with **React Query** (data fetching), **Axios** (API calls), and **Tailwind CSS + DaisyUI** (responsive design).
- Engineered **7+ REST APIs (Express, MongoDB/Mongoose)** handling Users, Posts, and Notifications.

EDUCATION

Bachelor of Engineering | Ramaiah Institute of Technology | **8.85/10 cgpa**

ACHIEVEMENTS

- **Agile Methodology** – Completed training at Dover, 2023. Gained knowledge in Agile practices, contributing to team sprints, and adapting to iterative development cycles.
